DECISION MATRIX

How the score is built. Weights add up to 100; every point comes from their answers.

Criterion	Share met (line: role average)	Points	Evidence
Role skills Weight 25	100%	25/25	• Mentions Go, PostgreSQL, REST, API, Gin, Docker and 3 more
Remote setup Weight 20	100%	20/20	• Stable internet • Own computer • Power backup • Quiet workspace • Can overlap client hours
Experience Weight 15	100%	15/15	• Has professional experience • Has worked remotely
Evidence of work Weight 15	78%	11.7/15	• Shared work to look at • Detailed project description • Project answer includes a link
AI tool fluency Weight 10	100%	10/10	• Names the tools they use • Checks what the tools produce
Education Weight 10	95%	9.5/10	• Relevant subject: Computer Science and Engineering • Graduating or graduated 2025
Availability and salary Weight 5	90%	4.5/5	• Accepts the listed salary • Can start within two weeks
Total		96/100	A guide to support your judgment, not a verdict.

ROLE SKILLS

9 of the 15 skills we screen for appear in their answers.

Go

Golang

PostgreSQL

SQL

REST

API

Gin

Echo

Fiber

Docker

JWT

authentication

test

microservice

Git

Blue: mentioned. Outlined: not mentioned.

REMOTE SETUP

6 of 6 in place for working from home.

Stable internet

Yes

Power backup

Yes

Own computer

Yes

Quiet workspace

Yes

Overlaps client hours

Yes

Worked remotely

Yes

IN THEIR WORDS

Role skills are in bold blue.

A project they built or tested

A library **REST API** in **Go** with **Gin** and **PostgreSQL**, with **JWT authentication**. I designed the schema, wrote the handlers and table-driven **tests**, and run it in **Docker**: <https://github.com/example/library-api>

29 words

How they use AI tools

I ask Claude and Cursor to draft **tests** for an endpoint, then run them, read the failures and fix what they missed. I review every change before I commit it.

30 words

Anything else they told us

I worked six months with a remote team in Berlin, so I'm used to written updates and overlapping hours. Night shifts for North American clients suit me.
